

Iris is a Greyhound, American Staffordshire Terrier, Russell Terrier Cross

The ROYAL CANIN® Genetic Health Analysis™ computer algorithm performed over 17,000,000 calculations using 11 different models (from a single breed to complex combinations of breeds) to predict the most likely combination of pure and mixed breed dogs in the last three ancestral generations that best fit the DNA marker pattern observed in Iris. The ancestry chart depicting the best statistical result of this analysis is shown in the picture below.
